1) Which field of the Customers table is the primary key?

   The Cnum (Customer Number) field is the primary key in the CUSTOMERS table. This field uniquely identifies each customer.

2) What is the 4$^{th}$ column of the Customers table?

   The 4$^{th}$ column of the Customers table is Rating.

3) What is another word for row?  For column?

   Another word for row is record or tuple.
   Another word for column is field or attribute.

4) Why isn't it possible to see the first five rows of a table?

   If you are unable to see the first five rows of a table, it could be due to several Reasons:

1. Lack of data: The table may not have enough rows .The rows could be less than 5.
2. Access restrictions: Your database user might not have permission to view the data.
3. Query error: If your query doesn't limit the results properly, it might not return the rows you expect.
